

## No-Shows Can Hurt Your Bottom Line.

No-show rate is 23% without the use of any reminder system.

– NCBI, National Institutes of Health

87% of American adults own cell phones and three-quarters use Text.

– Pew Research

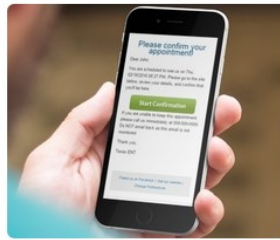

### Your Automated Appointment Reminders Solution *Comprehensive. Non-intrusive. Highly Effective.*

#### Step 1

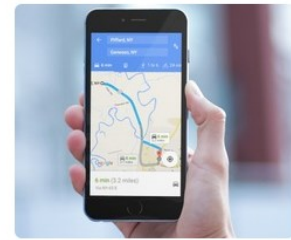

Patients are reminded to complete forms ahead of time.

#### Step 2

Patients are asked to confirm appointment a couple days in advance.

#### Step 3

Patient receives same-day reminder with GPS navigation to the correct location.

- High configurability around timing, reasons, and content
- Mobile-friendly process with no typing required
- Non-intrusive unlike phone based reminder systems
- HL7 based integration with scheduling systems
- Cost-effective solution that dramatically reduces no-show rates
