

Simple Interact

More patients. Less paperwork.

Online Reputation Can Make Or Break Your Business.

77% of patients use online reviews before selecting a doctor.

– Software Advice

A one-star increase in online rating leads to 5%-9% revenue increase.

– Harvard Business Review

Patient Feedback & Online Reviews Solution

Simple. Patient-Friendly. Highly Effective.

Step 1

A survey is sent via Text or Email after every patient encounter.

Step 2

Negative comments are captured and handled privately in real time.

Step 3

Happy patients leave reviews on sites like Google, Yelp, and Healthgrades.

- Mobile-friendly survey with no typing required
- Review site instructions tailored for iPhone, Android, and PC
- Insightful analytics and reports
- Priced less than reactive solutions for reputation management
- Tremendous impact on patient retention and acquisition
