

End-to-end solution from submission to decision

- Integrates patient data from the provider EMR
- Verifies eligibility and coverage using payer rules
- Auto-populates case with patient, provider and procedure information
- Tracks case status and manages communication
- Delivers automated decisions from eviCore's UM platform and payer systems

VERIFY

- Confirms eligibility
- Verifies medical policy (e.g., PA requirement)
- Displays preferred site of service

CREATE AND SUBMIT

- Auto-populates patient and provider data
- Submits case to eviCore or payer organization

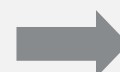

CLINICAL REVIEW

- Automates clinical decisions
- Simplifies collection of clinical information

TRACK

- Provides dynamic status checking
- Automatically returns decision
- Logs decisions in the EHR

COMMUNICATE

- Manages communications between provider and UM entity (e.g., eviCore or payer organization)
